1986 - 1994	Dunottar School, Reigate
1994 - 1996	Bath High School, Bath
1997 - 2002	University of Bristol

CONTINUES PROFESSIONAL DEVELOPMENT

Emma has completed a 2 year modular course in small animal surgery with Improve International and gained her GP Cert (SAS). Whilst completing this she saw practice at Anderson Moores Veterinary Referrals 2 days each month, where she was able to scrub in on more advanced procedures such as thoracic and spinal surgery. This increased Emma's breadth of knowledge and understanding in this field, whilst allowing her to experience a wider range of surgeries than those seen in first opinion practice. Emma has also completed a wide range of clinical courses in medicine, imaging and cardiology.

In her job as a vet she was frequently called upon to resolve disputes and complaints and Emma discovered she had an aptitude for this. Emma decided to move out of clinical practice and further develop her skills in this field. To this end she have completed her Regents University Accredited Mediator course. Following on from this Emma has attended a course on veterinary communication which consolidated her previous mediation experience and allowed her to apply her skills to the veterinary field.

CAREER PLAN

Emma enjoys all aspects of veterinary work and have enjoyed the varied workload general practice offers however she is now looking to branch into non clinical work. Emma has a specific interest in veterinary legal work and mediation. Having qualified as an accredited mediator she plans to further develop her skills in alternative dispute resolution. Emma is keen to work in both veterinary and medical fields.

INTERESTS

Emma has two sons aged 6 and 3, and an 2 year old daughter, who are all great fun and make her very proud. Emma enjoys all aspects of art and has a particular interest in life sculpture and portraiture. Other interests include running and walking with her dog.

SKILLS

Emma is an excellent communicator and has good inter-personal skills. Emma has good written and analytic skills and enjoys rising to a new challenge. Emma is IT competent and familiar with most frequently used software packages. Emma can touch type and is comfortable using all modern communication techniques.
